

Secondary School in Murcia, in the southeast of Spain

Our students study English as a foreign language and we would like to have a Linguistic Assistant or a person who wants to do their practice period as an English teacher.

During the last 4 years we have had a Comenius Linguistic Assistant in our school and the experience has been extremely good and interesting both for students and teachers.

I can send the people interested more information about the school and the project we have for the English Linguistic Assistants.

María José Vélez

Head of the English Department
