

Online Information Event

Individual Funding Opportunities in Horizon Europe – Marie Skłodowska-Curie Actions and European Research Council

When: 29. January 2021, 10:00 - 12:20

The next framework programme Horizon Europe is expected to start on Jan 1st, 2021. In cooperation with National Contact Point MSC and NCP ERC, UBremen as part of the U Bremen Research Alliance organizes an online information event on the MSCA Individual Funding as well as the ERC Funding Lines to provide brand-new information on the upcoming calls. Speakers will give insights on the most relevant aspects of the calls. Furthermore, two successful applicants will present their experiences.

The event aims at researchers who would like to get to know European funding opportunities as a way to plan their next career steps. Individual MSC actions support the mobility of experienced researchers - one of the important aspects in fostering one's career. ERC funding is attractive for excellent researchers with groundbreaking ideas who are about to establish their own independent groups and PIs who are at the career stage at which they consolidate their own group or research programme.

Administrative staff involved in proposal submission and management is welcome.

Agenda
