Declaration of Honor for Green Travel

We only need this template from you if you are using sustainable means of transport for your stay abroad. Please complete and sign the template and send it by email to erasmus@uni-greifswald.de.

Participants who travel at least 50% of their journey there and back by sustainable means of transport will receive additional individual support for travel costs and travel days of up to 4 days for a return journey, if applicable. In total, a maximum of six additional days of individual support for travel can thus be claimed. In this case, two days for standard travel and four days for *Green Travel* are used to calculate the daily rates. Please note that participants must justify the need for these additional travel days.

According to the National Agency DAAD, sustainable means of transport are:
